

Academic Integrity Referral Form

If you are submitting more than one student in unrelated cases, please submit a separate form. For example, if a group of students is suspected of collaborating, you can fill out one form since the cases are related. If you have two students in your class that plagiarized but they did not work together, please submit separate forms for each. Please remember the referred students have the right to see everything in the case file including this form, and any email correspondence that takes place between the Office of Academic Integrity and the referring party.

Referring Party Information

| | | |
|---------------------------------------|--|----------------|
